

**2019 June Holiday Bootcamp  
GCE 'O' Level Elective History  
For Sec 4**

For the O-Level History examinations in 2019, 60% of the marks come from Section A, where Source-Based skills are tested. Therefore, it is essential for candidates to be clear on how to tackle questions found in Source-Based Case Studies in a historical context.

For these series of two-hour sessions over three days, the focus would be on the following skills:

- Reliability of sources
- Utility of sources
- Evaluation of sources

Using case studies from the rise of Stalinist Russia, the Korean War and the Cuban Missile Crisis, step-by-step guidance will be given to the participants on how to recognize such questions and how to tackle such questions. Practices are given and will be marked promptly.
